# Nouns

Our lunch lady is so awesome! She always tells us funny jokes when we walk through her line. Last week, she told me about a pig that had a microphone. Sometimes she makes me laugh so hard my eyeballs hurt!

When it is time to go to the doctor's office for a check up, I can't wait! She always has movies in the waiting room and candy for after my appointment. She is the best pediatrician ever!

This morning, when we went to get mom's coffee at Starbucks, they got her order wrong. Mom had a Smile on her face as she remained patient. When her drink was finally ready, mom added Sugar and Cinnamon to it, and she said it was absolutely perfect!
