

# Sight Word Activity Strips

Students complete four interactive activities to learn/practice a given sight word.

Once students have completed their Sight Word Activity Strip, they get to add it to their sight word ring...how cool! All of their sight words will be in ONE PLACE for the entire year! A great early-finisher activity (and confidence builder) is to let students practice partner reading through their sight word rings.

Use self-adhesive hooks on the side of students' desks to hang each Sight Word Activity Strip ring.

Or, make a cute bulletin board display by hanging all of the student rings in one place for easy access.

You can be creative as to what you let your students use to complete their activity strips...crayons, dot (Dab) markers, colored pencils, etc...

Dot markers used below to "match & color"

This set includes 40 Pre-Primer Dolch Sight Words and two cover sheet choices!
