SKIP COUNTING

The image shows a tablet held by two hands, displaying a digital version of the 'Solve It Strips' skip counting activity. The screen is divided into two main sections. On the left, a clipboard icon contains a list of numbers to skip count by: 80, 40, 20, and 70. Each number is followed by a sequence of numbers and a blank space for the next number in the sequence. For example, '80' is followed by '5, 10, 15, ____'. The sequence for '20' ends with '65, ____', and the sequence for '70' is 'FINISH!'. On the right, a section titled 'Count by 5s' contains a 'START:' box with '0, 5, 10, ____'. Below this are five numbered boxes: 15, 60, 25, 45, and a blank box. Each numbered box is followed by a sequence of numbers and a blank space for the next number in the sequence. For example, '15' is followed by '45, 50, 55, ____'. The sequence for '45' ends with '25, 30, 35, ____'. Below these are four more blank boxes for additional sequences. At the bottom right of the screen is the 'INSPIRED elementary' logo. At the bottom left of the screen is a small circle containing the number '4'.

Solve It Strips®

Count by 5s

START: 0, 5, 10, ____

15 45, 50, 55, ____

60 10, 15, 20, ____

25 30, 35, 40, ____

45 25, 30, 35, ____

80 5, 10, 15, ____

40 65, 70, 75, ____

20 55, 60, 65, ____

70 **FINISH!**

DIGITAL VERSION

HOW TO USE DIGITAL Solve It Strips®

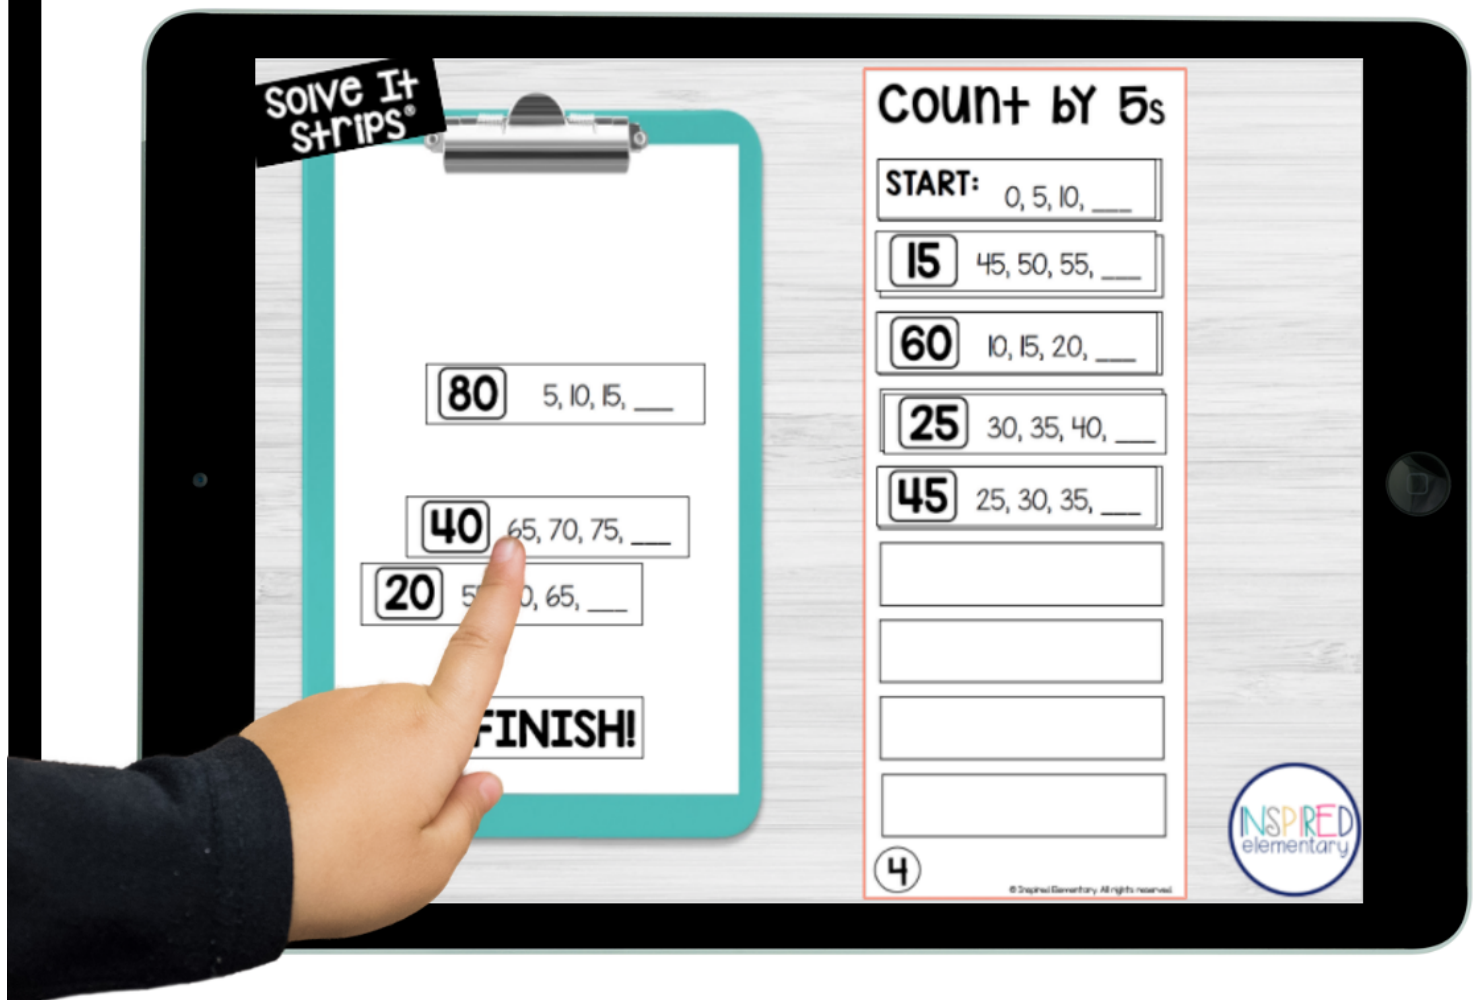

SAMPLE
(SUMS & DIFF. SET SHOWN)

Students begin by dragging the START strip to the Solve It Strip.

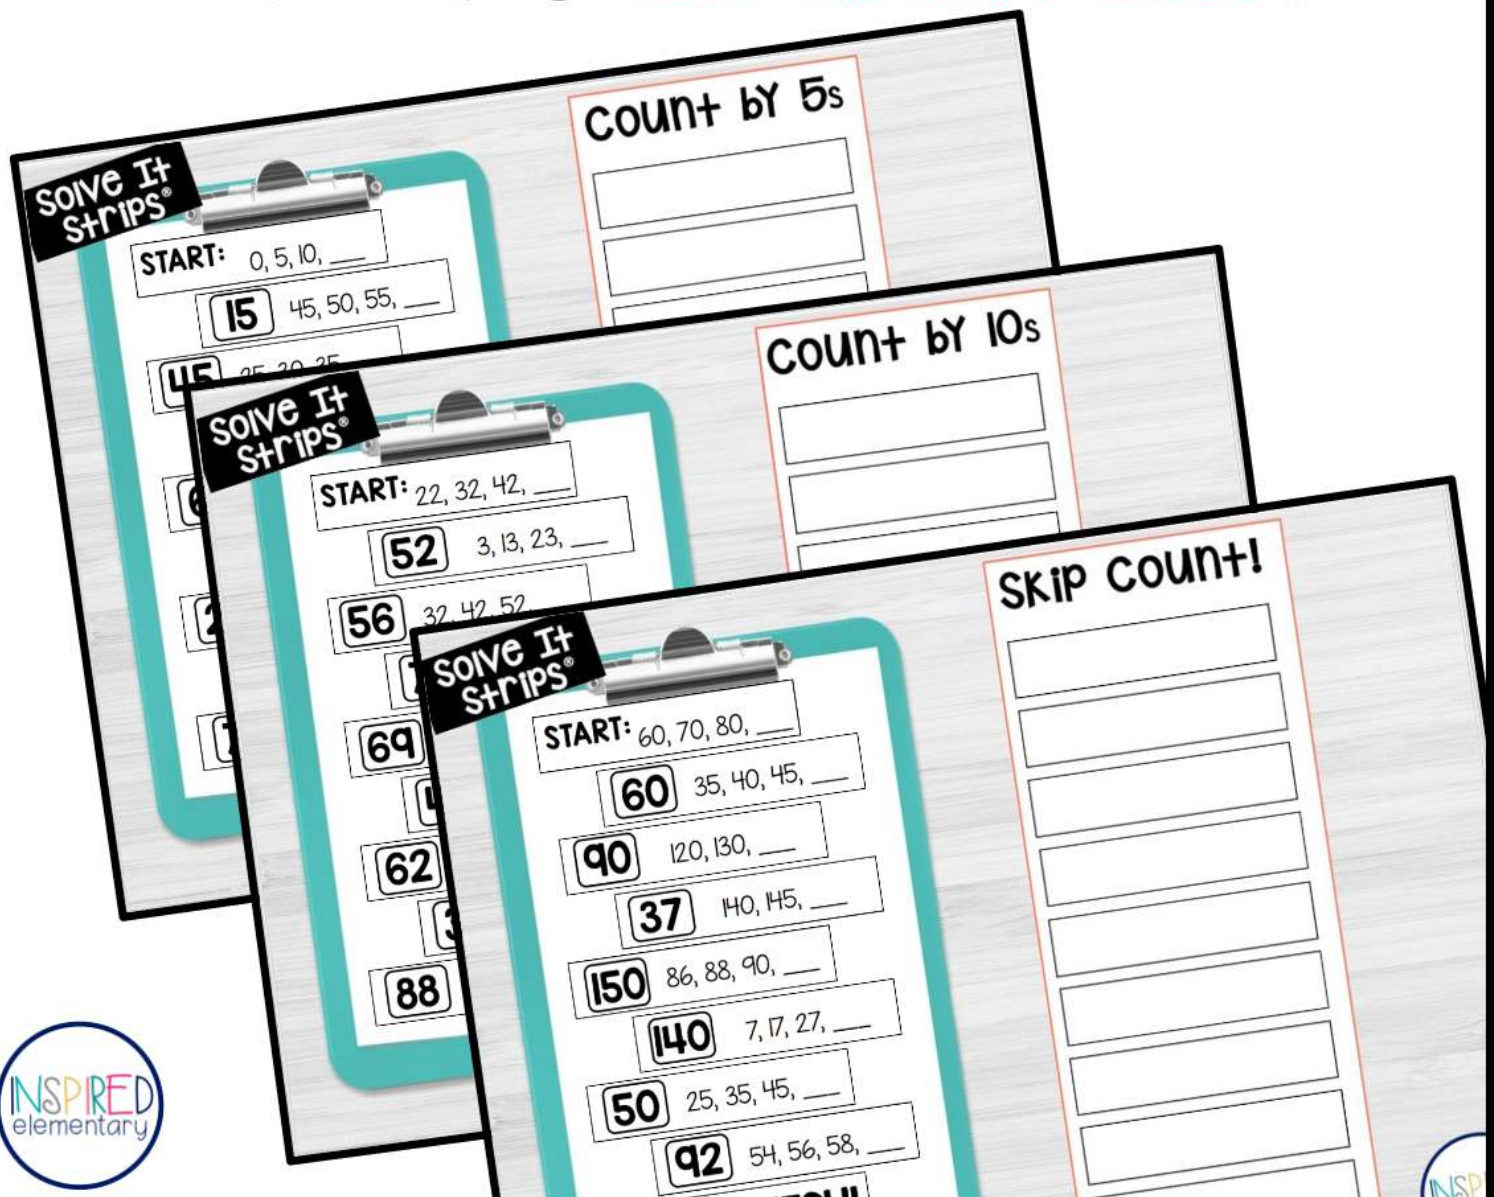

Next, they solve the problem given on the START strip (ex. $1 + 1 = 2$). So students find the strip that has a 2 in the answer box and drag that below the START strip.

Students continue on solving the problems on teach strip until they reach the FINISH strip. If students don't end up on the FINISH strip, they didn't do it correctly and need to try again (so it's self-correcting!)

DIGITAL Solve It Strips® ARE ENGAGING & FUN!

15 DIFFERENT Solve It Strips® IN EACH SET!
